

data selecting means for selecting electronic mail data from the at least one set of the electronic mail data based on the electronic mail title; and

image forming means for forming an image based on electronic mail data selected by the data selecting means, wherein the internet facsimile device displays the received electronic mail title.

21. (Amended) A method of controlling an internet facsimile device, comprising the steps of:

receiving electronic mail attached with a header by the internet facsimile device from a remote internet facsimile device, the header including a title;

reading the title from the header;

displaying the title that has been received along with the electronic mail data;

and

forming an image based on the electronic mail when requested by a user, wherein the internet facsimile device displays the received electronic mail title.

#### REMARKS

Claims 14-19, 21 and 22 are pending by the Amendment filed April 23, 2002. By this Supplemental Amendment, claims 14 and 21 are amended.

The attached Appendix includes marked-up copies of each rewritten claim (37 C.F.R. §1.121(c)(1)(ii)).

Applicants thank Examiner Pokrzywa and Primary Examiner Nguyen for the courtesies extended to Applicant's representative during the May 8 personal interview. Claims 14 and 21 are now amended to clarify that the internet facsimile device displays the received electronic mail title that has been received along with the electronic mail data.

As agreed, Ho et al. and Foladare et al. do not disclose a facsimile device receiving electronic mail data attached with an electronic mail title.
